

Scientific Program

SwissRhythm, 19 - 20 November 2026, KKL Lucerne

Thursday, 19 November 2026

situation as of 1st October 2026

09:00 - 10:30	Main Session	Tobias Reichlin, Bern Ardan Saguner, Zurich
09:00 - 09:30	Update on lead management & extraction	Alexander Breitenstein, Zurich
09:30 - 10:00	Risk stratification of SCD and management of arrhythmias in HCM patients in the era of novel treatment options	Christiane Gruner, Zurich
10:00 - 10:30	Anticoagulation after AF Ablation	Jan Steffel, Zurich

10:30 - 11:00	Coffee Break
---------------	--------------

11:00 - 12:40	New and Evolving Technologies	Claudia Herrera Siklody, Bern Firat Duru, Zurich
11:00 - 11:25	When to Combine Ablation and LAAC: Swiss Experience with Concomitant AF Ablation and LAAC	Laurent Roten, Bern
11:25 - 11:50	Managing CSP in different patient populations: from AV block to CRT-D-LBBAP	Matteo Baroni, Milan, IT
11:50 - 12:15	Advancing Conduction System Pacing: The role of real-time guidance in optimizing lead placement outcomes	Aurélien Daux, Lausanne
12:15 - 12:40	From PVI to Complex VT: The Full Potential of a large focal dual energy catheter	Tobias Reichlin, Bern

12:40 - 14:00	Lunch
---------------	-------

14:00 - 14:40	Pro / Con Session:	Etienne Delacretaz, Lausanne Peter Ammann, St. Gallen
	AV-Block after TAVR: Transvenous or Leadless Pacing?	
	Transvenous	Haran Burri, Geneva
	Leadless	Michael Kühne, Basel

14:40 - 16:00	Interactive Case Discussions	Andreas Müller, Zurich Richard Kobza, Lucerne
14:40 - 15:00	Management of arrhythmias in Patients with Cardiac Amyloid	Valerian Valiton, Geneva
15:00 - 15:20	Management of arrhythmias in Patients with Cardiac Sarcoid	Ardan Saguner, Zurich
15:20 - 15:40	Management of young patients with asymptomatic persistent AF	Hari Vivekanantham, Fribourg
15:40 - 16:00	Management of CIED patients in the remote telemonitoring clinic	Giulia Domenichini, Lausanne

16:00 - 16:40	Coffee Break
---------------	--------------

16:40 - 17:30	ECG Workshop	Maria Luce Caputo, Lugano Daniel Sepulcri, Zurich
---------------	--------------	--

Friday, 20 November 2026

08:30 - 10:50	Main Session	Hildegard Tanner, Bern Laurent Haegeli, Aarau
08:30 - 09:00	Key takeaways from the 2026 EHRA PFA Document	Patrick Badertscher, Basel
09:00 - 09:30	Can AI improve SCD Prediction?	Xavier Jouven, Paris, FR
09:30 - 10:00	Loop recorders, Patches, Holter & Watches - an update on rhythm monitoring	Giulio Conte, Lugano
10:00 - 10:30	Withdrawal of HF medications after recovered Arrhythmia-induced Cardiomyopathy	Philipp Krisai, Basel
10:30 - 10:50	Prize award SWISSRHYTHM RESEARCH PRIZE 2026 and presentation	Tobias Reichlin, Bern Ardan Saguner, Zurich

10:50 - 11:30	Coffee Break
---------------	--------------

11:30 - 13:10	New and Evolving Technologies	Amir Jadidi, Lucerne Sven Reek, Aarau
11:30 - 11:55	Integrated PFA Workflows: Optimizing Outcomes	Daniel Scherr, Graz, AT
11:55 - 12:20	SCD-PROTECT and beyond: SCD risk stratification for NICM and ICM	Christian Grebmer, Lucerne
12:20 - 12:45	TV-Interventions & CIED-Management	Fabian Noti, Bern
12:45 - 13:10	Leadless AAI pacing for the treatment of Sinus Node Disease	Mathieu Le Bloa, Lausanne

13:10 - 13:40	Hot topics in 2026	Tobias Reichlin, Bern
13:10 - 13:25	CSP vs. CRT (HeartSync-LBBP & PhysioSync-HF)	Andreas Häberlin, Bern
13:25 - 13:40	LAAC vs. Anticoagulation (CLOSURE AF & CHAMPION AF)	Christian Sticherling, Basel

13:40 - 14:40	Lunch
---------------	-------
